**To whomsoever, it may concern**

I'm delighted to write for Collins Olawale Akala on behalf of Zummit Africa, regarding his 4 months tenure as an intern in Zummit Africa.

During his internship, Collins was assigned a variety of projects involving a key role in the Machine Learning department. He was an enthusiastic individual and worked diligently on the tasks assigned. He worked on different projects. He also assisted in building our AI community. His excellent communication and presentation skills were valued not just by myself, but by his peers. He was a good team player and he led his team on several AI projects.

He also actively engaged in the company's monthly employee engagement activities fostering positive bonds across different departments in the organization.

As his supervisor, I've had an opportunity to observe his interaction with the team and to evaluate his knowledge in the field of Machine learning. It was a wonderful experience working with him and I whole-heartedly recommend him for any future endeavors he chooses to pursue.

If you need more information or specific examples, please do not hesitate to contact me. I would be happy to further elaborate on my time working with him.

Sincerely,

***Damilola Adepoju***
